

World's Richest Breakaway Breeder's Incentive Program

The Breeder's Incentive Program was developed to promote the horsepower at the World's Richest Breakaway held the beginning of May in Billings, MT. The stallion auction will run December 1st through January 15th and will be held online. Bidding will be in US funds ONLY. There will be a five minute extension to allow time for everyone to bid, if two or more people are bidding on the same stallion service, within the last five minutes of the auction closing. The bidding will automatically continue in increments of five minutes until only one person is bidding. The stallions that are extended will be noted.

The stallion auction will be advertised online and through all World's Richest Breakaway social media. All Stallions will be listed at www.worldsrichestbreakaway.com. No stallions located outside the United States or Canada will be accepted into the program.

Stallion services will be sold through online auction to the highest bidder. Stallion owners who choose to list their stallion(s) as a Reference Sire will pay half their current advertised fee not to exceed \$1500. The bidding will start at 50% of the annual advertised fee or \$300 whichever is greater. Stallion owner/farm may require special breeding requirements.

The successful bidder of a stallion service must use the breeding during the current breeding season. All fees associated with boarding, mare care, collection, shipped semen charges and chute/farm fees are between the successful bidder and the stallion owners. The World's Richest Breakaway is not responsible for any other business conducted between the stallion owner and the purchaser of the breeding. Once the contract is signed between purchaser and stallion owner the World's Richest Breakaway responsibility ends. There will be NO REFUNDS.

The mare owner shall make all necessary arrangements for the stallion owner as to when the mare will arrive for breeding or make arrangements for the shipping of semen. Stallion owners have the right to refuse any mare. Mare owner must make the mare available for breeding during the stallion owner's normal breeding season or may risk forfeit of all money paid and breeding rights. Mare must be halter broke and fit for breeding.

In the event that death should occur to a stallion or he becomes incapable of breeding before the mare is bred, the stallion service auction fee shall be refunded to buyer. If a stallion is sold or leased before mare is settled in foal, contract is still binding unless stallion moves outside a 500-mile radius from the original advertised location or the new buyer refuses to honor the contract. In such case, the purchaser of the service may have the option to request a refund.
